UNIC | Institute For the Future

Certificate of Accomplishment

This is to certify that

Shymaa Arafat

has successfully completed the course

MASTERING WEB3

This Massive Open Online Course (MOOC) provides an introductory understanding of blockchain technologies, decentralized digital currencies, and the broader web3 ecosystem. The course covers the history and theoretical foundations of decentralization, the technological principles of blockchain and decentralized digital currencies, the emergence of Non-Fungible Tokens (NFTs) and tokenized assets, and the implications of decentralized finance (DeFi), central bank digital currencies (CBDCs), and the Metaverse. The course also examines how blockchain integrates with other technologies to shape a decentralized future.

Evaluation Score:
The student has passed the examination with a grade of:

100
